

TECHNICAL INFORMATION SHEET

4A POWDER SANITISER

Product Description

A broad-spectrum detergent sanitiser for use on all surfaces including food contact surfaces.

Features and Benefits

- Suitable for use on all hard surfaces, equipment and utensils requiring disinfection.
- Contains active chlorine for effectivity against a wide spectrum of micro-organisms.
- Chlorine release agents have been shown to be effective against a wide range of micro-organisms, including viruses, bacteria and fungi.
- Contains a scale control agent, which makes it effective in all water conditions.

Use Instructions

General Disinfection:

1. Prepare solution (10g/L) using hand hot water
2. Pre-clean heavily soiled surfaces
3. Immerse in solution or apply solution with cloth or brush to the surface
4. Leave for 5 minutes
5. Rinse and allow to air dry

Spray Disinfection:

1. Pre-clean heavily soiled surfaces
2. Spray surface with solution (10g/L water) and leave for 30 seconds
3. Wipe with damp cloth
4. Rinse and allow to air dry

Neat:

1. Sprinkle on wet surface or apply to wet cloth
2. Wipe surface with cloth
3. Leave for 1 minute
4. Rinse and allow to air dry.

Safe Handling and Storage

See visual information to the right.

Full guidance on the handling and safe use of the product can be obtained from the Safety Data Sheet.

Store in original container.

Avoid extremes of temperature.

Health & Safety

HAZARD AS SUPPLIED

Contact with acids liberates toxic gas. Toxic to aquatic life with long lasting effects.

HAZARD WHEN USED
AT RECOMMENDED
DILUTION.

Not classified. Wear gloves for prolonged use.

Technical Information

Appearance: White powder

pH (1% solution): 9 - 10

Relative density: N/A

Odour: Chlorine

Solubility: Fully miscible in water

The above data is typical of normal production and should not be taken as a specification.

Materials Compatibility

Suitable for use on all materials commonly encountered in the kitchen. Non corrosive toward mild and stainless steel, polythene, polypropylene, crockery and all soft metals.

Efficacy Data

Powder Sanitiser has been tested independently in accordance with:

EN 1276 at a dilution of 1% in hard water (300ppm as CaCO₃) and in clean conditions, 5 minutes contact time.
