TECHNICAL INFORMATION SHEET

SA42 ULTRA CLEANER SANITISER CONCENTRATE

Product Description

A low toxicity dual purpose product which cleans and sanitises all hard surfaces such as floors, paintwork, working surfaces, stainless steel etc. in one operation.

Features and Benefits

- An excellent general-purpose sanitiser based on a natural organic biocide and plants extracts.
- Enables cleaning and sanitising to be carried out simultaneously.
- Effective in all water conditions.
- Can be used for cleaning and sanitising food utensils, glasses, crockery and all types of kitchen equipment.
- Suitable for use on all types of hard surfaces including plastics, laminates, glass and stainless steel.
- No residual organoleptic effect when used to clean stainless steel surfaces under normal cleaning conditions.
- Efficiently hinders lime scale build-up.
- Suitable for use in high risk infection areas e.g. public washrooms, health care environments.
- An outstanding disinfectant with bactericidal and virucidal properties.

Use Instructions

Dilution

Ultra Cleaner Sanitiser Concentrate should be used at a 10% dilution.

Cleaning & Sanitising

1. Apply the solution via trigger spray, cloth or brush.
2. Leave for at least 30 seconds and wipe with a clean cloth.

Fogging

1. Use a mechanical fogging machine as part of terminal disinfection routine with a solution diluted to 10%.
2. Shut down any ventilation systems during the disinfection.
3. Apply at a rate of one litre of solution per 100 m³.
4. Leave the room during the fogging.
5. Users may re-enter the treated area once the fog has dispersed.

Safe Handling and Storage

See visual information to the right.

Full guidance on the handling and safe use of the product can be obtained from the Safety Data Sheet.

Store in original container.

Avoid extremes of temperature.

Health & Safety

HAZARD AS SUPPLIED

Causes severe skin burns and eye damage.

HAZARD WHEN USED AT RECOMMENDED DILUTION.

Causes skin irritation.
Causes serious eye damage.

Technical Information

Appearance: Brown liquid

pH : <4

Relative density: 1.04

Odour: Characteristic

Solubility: Fully miscible in water

The above data is typical of normal production and should not be taken as a specification.

Materials Compatibility

Under recommended conditions of use suitable for use on most materials commonly encountered. Do not use on marble or other acid sensitive materials.

Other Information

Do not mix with conventional detergents as they may reduce product effectiveness. Diluted solutions should be discarded after 7 days.

Efficacy Data

Tested independently in accordance with:

- EN 1276 Bacterial action against *Pseudomonas aeruginosa* ,*Escherichia coli*, *Staphylococcus aureus*, *Enterococcus hirae*, 30 seconds, dirty conditions.
- EN 13704 Sporicidal activity against *Clostridium difficile*, 5 minutes, clean conditions.
- EN14476 Virucidal activity against Norovirus, Hepatitis C, 5 minutes, clean conditions.
- EN14476 Virucidal activity against HIV, 15 minutes, clean conditions.
- EN14476 Virucidal activity against enveloped viruses including coronaviruses, 5 minutes, clean conditions.
- EN13727 Bacterial action against the NDM1 bacterial strain, 1 minute, dirty conditions.
- TES-S-004: Triangle test for potential taint due to contact with materials.

A summary of the tests is available on request.
