

Companion in Hygiene Solutions

TECHNICAL INFORMATION SHEET

7C DECARBONISING POWDER

Product Description

A highly concentrated caustic based powder suitable for removing oils, fats and carbonised deposits.

Features and Benefits

- Highly alkaline formulation will remove even heavily carbonised soil.
- Removes burnt on oils, fats, grease and other protein based soiling from baking trays and other cooking equipment.
- Fast acting, highly concentrated formulation.
- Effective in cold water.

Use Instructions

Soaking

1. For best results remove loose soiling first.
2. Heavy soiling - dilute 50g/1L of water, Light / Medium soiling – dilute 40g/1L of water.
3. Using a soak tank dilute the product in cold water.
4. Leave for 5-30 minutes depending on the level of soiling.
5. Rinse off with clean water.

Safe Handling and Storage

See visual information to right.

Full guidance on the handling and safe use of the product can be obtained from the Safety Data Sheet.

Store in original container.

Avoid extremes of temperature.

Technical Information

Appearance: Yellow powder

pH (1%): >13.0

Relative density: 1.15

Odour: Characteristic

Solubility: Fully miscible in water

The above data is typical of normal production and should not be taken as a specification.

Materials Compatibility

Non-corrosive toward mild and stainless steel. Corrosive, both at user concentration and undiluted on aluminium, zinc, tin, copper and their common alloys.
