# TECHNICAL INFORMATION SHEET 7F FORCE CLEANER

## Product Description

A highly concentrated caustic cleaner for the removal of heavily carbonised soils.

## Features and Benefits

- Force Cleaner contains a balanced blend of caustic alkali, surface active agents and sequestrants.
- Effectively removes fat, grease and soil from most surfaces found in the food, beverage and dairy industries.
- Effective at removing animal & vegetable fats, blood and proteins.
- Will quickly and efficiently remove heavy carbonised soils.
- Recommended for the daily cleaning of oil fryers and ovens.

## Use Instructions

### Spray cleaning

1. For best results remove loose soiling first.
2. Apply neat using a trigger spray onto a pre-heated surface. The surface temperature should be between 60 – 80°C, do not apply to surfaces that are greater than 80°C
3. Leave for 10-30 minutes depending on the level of soiling.
4. Rinse off with clean water.

### Soaking

Use at concentrations between 2 – 10% depending on level and type of soiling.

1. Rinse all surfaces with fresh water to remove gross soiling.
2. Dilute to concentrations as shown and leave for up to 60 minutes depending on the degree of soiling.
3. Supplement with agitation or attrition e.g. brushing where required, particularly on food contact surfaces.
4. Final rinse.

	Soaking	Spraying
• Concentration	• 2 - 10%	• neat
• Temperature	• ambient - 80°C	• 60 - 80°C
• Contact time	• up to 60 minutes	• 10 - 30 minutes

## Safe Handling and Storage

See visual information to the right.

Full guidance on the handling and safe use of the product can be obtained from the Safety Data Sheet.

Store in original container.

Avoid extremes of temperature.

## Health & Safety

HAZARD AS SUPPLIED

Causes severe skin burns and eye damage.

HAZARD WHEN USED AT RECOMMENDED DILUTION.

Causes severe skin burns and eye damage.

## Technical Information

Appearance: Brown liquid

pH : > 13

Relative density: 1.25

Odour: Characteristic

Solubility: Fully miscible in water

The above data is typical of normal production and should not be taken as a specification.

## Materials Compatibility

When applied at the recommended concentration and temperature Force Cleaner is suitable for use on the grades of stainless steel commonly found in the processed food industry. It is unsuitable for use on soft metals such as aluminium and galvanised materials. Always rinse surfaces thoroughly after use.
